REVIEWS ON BIOMEMBRANES

CONTENTS OF VOLUME 906 (MR16)

Recent advances in the characterization of epithelial ionic channels (BBA 85301)
by N.K. Wills and A. Zweifach (U.S.A.) 1

The spontaneous incorporation of proteins into preformed bilayers (BBA 85302)
by M.K. Jain and D. Zakim (U.S.A.) 33

Halobacterial glycoprotein biosynthesis (BBA 85303)
by M. Sumper (F.R.G.) 69

Protein glycosylation in yeast (BBA 85304)
by W. Tanner and L. Lehle (F.R.G.) 81

Bacterial calcium transport (BBA 85305)
by B.P. Rosen (U.S.A.) 101

The physical properties of glycolipids (BBA 85306)
by W. Curatolo (U.S.A.) 111

Glycolipid function (BBA 85307)
by W. Curatolo (U.S.A.) 137

Oligosaccharyl transferase: the central enzyme in the pathway of glycoprotein assembly (BBA 85308)
by H.A. Kaplan, J.K. Welply and W.J. Lennarz (U.S.A.) 161

Vesicular stomatitis virus membrane proteins and their interactions with lipid bilayers (BBA 85309)
by R. Pal, Y. Barenholz and R.R. Wagner (U.S.A., Israel) 175

Transcellular calcium transport in intestinal and renal epithelial cells (BBA 85310)
by C.H. Van Os (The Netherlands) 195

Mechanisms and consequences of cellular cholesterol exchange and transfer (BBA 85311)
by M.C. Phillips, W.J. Johnson and G.H. Rothblat (U.S.A.) 223

The surface compartment model: a theory of ion transport focused on ionic processes in the electrical double layers at membrane protein surfaces (BBA 85312)
by M. Blank (U.S.A.) 277

Luminal and peritubular steps in renal transport of *p*-aminohippurate (BBA 85313)
by J.B. Pritchard (U.S.A.) 295

Biomembrane fusion: a new concept derived from model studies using two interacting planar lipid bilayers (BBA 85314)
by L.V. Chernomordik, G.B. Melikyan and Y.A. Chizmadzhev (U.S.S.R.) 309

Lipid intermolecular hydrogen bonding: influence on structural organization and membrane function (BBA 85315)
by J.M. Boggs (Canada) 353

Subcellular organization of glycosylation in mammalian cells (BBA 85316)
by J. Roth (Switzerland) 405

Ion transport by the placenta: a review of membrane transport systems (BBA 85317)
by D.B. Shennan and C.A.R. Boyd (U.K.) 437

Insulin–membrane interactions and membrane fluidity changes (BBA 85318)
by R.N. Farias (Argentina) 459
